

Farfisa PT511 SW/1

Terminals

- 1 Call / Speech / Lock**
- 3 Common**
- 6**
- 7**

IMPORTANT NOTE :

1) Before replacing the handset make note of the wires to each terminal on the existing unit (an easy way is to cut each core off leaving a piece of the insulation in place with colour visible) twist unused cores together (so you know they are not used, do not short them out).

2) Some older systems will have cable with one coloured core and a solid white core in this case mark each core with a marker or tape.

3) Some systems may have loop on wiring, you will have 2 cables into your handset (make sure any joins remain, as these may be serving other flats on the system).

WIRING DIAGRAM

Posti esterni amplificati serie UP per impianti citofonici 1+1

Amplified door stations modules UP series for 1+1 intercom systems

Postes de rue amplifiés série UP pour les installations d'interphonie 1+1

Placas exteriores amplificadas serie UP para las instalaciones de portero eléctrico 1+1

Botoneiras amplificadas serie UP para instalações telefônicas de porta 1+1

Türstatione mit integriertem Türlautsprecher für 1+n Türsprechanlagen

FARFISA
INTERCOMS

UP111. Da esterno-muro, ad 1 pulsante / Surface mounting, with 1 push-button / A poser en aplomb, à 1 poussoir
De pared externa, con 1 pulsador / De parede externa, com 1 botão / Wandmontage von außen mit 1 Taster
